# MR. FRYE'S BOMB SHELL

WHICH CAUSED A HOT DISCUSSION.

Proposition to Change the Basis of Rep. resentation-Tuunting the South and Bringing Back Some Red Hot Replies.

WASHINGTON, Dec. 13.—The warm de-bate in the Republican National Committee meeting was very exciting and more heated than the first outline telegraphed to the newspapers would indicate, as the fol-lowing more detailed account shows.

Senator Frye, on presenting his plan for a new basis of representation, earlier in the day, supported it with a vigorous speech. He said it presented a subject demanding honest and conscientious attention. When any gentleman made a proposition to change the form of the National Convention, every man who was a candidate for President, or who had one, immediately sniffed at it. He denied that he offered the new plan in favor of the interests of Mr. Blaine and in opposition to the interests of Mr. Arthur. He had not a candidate, and he never again would have one. Mr. Frye then quoted statistics to show that the representation from the Southern States, which were anti-Republican, was nearly as large as that from States surely Republican, and argued that his proposition was in the interest of absolute justice, which the National Committee could not afford to deny.

Mr. Forber, (Mass.,) briefly supported the proposition submitted by Mr. Frye, stating that the country would criticise the party if it refused to inaugurate reform in the organizing of the Convention.

When the Committee re-assembled at 7 P. M. discussion began over a point of order, which had been raised, that, as the Com-mittee had in February last agreed upon a basis of representation, it could not now change that plan. Secretary Chandler spoke against the point of order, holding that the Committee had the power to change the basis. Senator Logan denied that the Committee had the power; the National Convention only had such power. Mr. Chandler, continuing, appealed to the members of the South and from the Territories to vote for the Frye plan, arguing that it was demanded by the sentiment of Republicans in Republican States. General Bradley, of Kentucky, favored the position taken by Senator Logan. In reply to a taunt that the South could not give a single electorial vote to the Republican candidate, he said that if the Republican party of the North had given to the South the care and attention it gave to doubtful states North, the South would furnish ejectoral votes. It had given lives for the good of the party. Dr. Hicks, (Fla.,) said there were graveyards miles long in the South, filled with murdered Republicans. Mr. Pierce, (R. L.,) was sorry to see the debate take such a wide course and foured if it was reported in the newspapers it would delight the Bourbons of the country. The South had given us a President in 1876. He did not favor departing rom the present plan. After further exressions of opinion from various members of the Committee, Mr. Magee, (Pa.,) plan to the next Republican Convention. The vote on this motion resulted as follows: Yes, 25; no, 18. The following call was then adopted:

A National Convention will meet at Chiago on Tuesday, June 3, 1884, at noon for the nomination of candidates to be supported for President and Vice President at the next election. The Republican elecors of the several States and all other oters, without regard to past political difsrences, who are in favor of elevating and ignifying American labor, protecting and extending home industries, giving free popular education to the masses of the people, scuring free suffrage and an-honest countballots, effectually protecting all human rights in every section of our common country, and who desire to pro-note friendly feeling and perma-nent harmony throughout the land by maintaining a National Government pledged to these objects and principles, are cordially invited to send from each State four delegates at large, from each Con-gressional District two delegates, and for each representative at large two delegates to the Convention. The delegates at large half be chosen by popular delegate State Conventions, called on not less than twenty days published notice, and held not more than sixty days before the time fixed for the meeting of the National Convention. The Republicans of the various Congress ional Districts shall have the option of electing delegates at separate popular dele-gate conventions, called on similar notice and held in the districts at any time within

the fifteen days prior to the meeting of the State Conventions, or by subdivision into District Conventions; and such dele gates shall be chosen in the latter method if not elected previous to the meeting of the State Conventions. All State Conventions shall be accredited by the officers of such District Conventions. Two delegates shall be allowed from each Territory and from the District of Columbia, similarly chosen. Notices of contests shall be given to the National Convention, accompanied by full printed statements of the grounds of contest, which shall also be made public; and preference in the order of hearing and and determining contests shall be given by the Convention according to the dates of the reception of such notices and statements by the National Convention. Committee then adjourned to meet in Chicago, May Slat, 1883.

### TRIBUNE PRINTERS OUT.

Another Vigorous Strike in Progress is New York City.

New York, Dec. 13.—Another strike of compositors took place Wednesday evening in the New York Tribune office, and, with the accounting of Thompson, the fremmer and about half a dozen compositors, all the men left the office. Since the recent strike the Tribune has been a "Union" office, pay-ing forty-six cents per thousand ems. The men claim that everything went along smoothly until about a week ago, when they noticed Thompson was negotiating with non-Union men from out of town, they claim that he intends "rat" the office as soon as he could get a sufficient number of men. He told several Union men that there was no more work for them and filled their places with non-Union men. Mr. O'Donnell, President of Typographical Union No. 6, was informed of the condition of affairs and ordered the men out. Thompson claims he has enough non-Union men to get the paper out and that everything will be working smoothly again in a day or two The office is guarded by a large force of

KEELY'S DISCIPLES. Meeting of the Directors of the "Motor"

Company in Philadelphia. PHILADELPHIA, Pa., Dec. 13.—The stock holders of the Keely Motor Company held their annual meeting Wednesday in the office of the Company, on Walnut street. President Randall stated that the Board of Directors appeared before the stockholders without a written report. "We have several reasons for this, the principal cause being that any report at this time might do Mr. Keely a great injustice." He then read a long letter from Mr. Keely, in which that gentleman expressed regret at the delay in the completion of his labors, &c. Tha letter concludes: "I will say, however, that I do not see why I may not fulfill your expectations within the next two months, and I would suggest the meet ing of stockholders be postponed to February 1, 1884." In pursuance of the request of the inventor, Mr. Randall moved the meeting proceed at once to an election of Directors for the ensuing year, and adjourn without further action until February ! The motion prevailed, and the following Directors were elected for the ensuing year: Joseph Annin, Radeliffe Baldwin. George B. Collier, A. R. Edry, Frank G.

Green, E. J. Randall, and John J. Smith The Dry Goods Trade. New YORK, Dec. 13.-The market for dry goods has presented few new features worthy of mention. There is only a small representation of package buyers in town, and they are very cautious in their opera tions, which are mainly confined to the pur chase of such small lots of seasonable goods as are required for immediate distribution. Some fair orders are, however, being placed with agents for a few fabrics adopted to the spring trade, in which connection dress goods, shirtings, prints, white goods, etc., are doing pretty well. Jobbers report a moderately increased trade in some kinds of domestics and prints, and department goods are moving in fair quantities, aside from such heavy winter fabrics as flannels, blankets, woolens, etc., for which the demand continues very mod-

Burns Un Like a Flash of Sun Cotton - Some Exciting Episodes.

NEW YORK, Dec. 13.—The ferry boat Garden City, of the East River Ferry Company, caught fire and burned at noon at the foot of James' Slip. Several horses were burned, but all the passengers and employes escaped. The boat is a wreck, and was valued at \$100,000, partly insured. The Garden City left the slip at 11:35, starting for Long Island City. She had gone barely three lengths, heading up the stream, when fiames were seen bursting from the deck above the boiler. Pilot Nel son promptly reversed the engine and backed into the slip, but, so rapid was the spread of the flames, before he reached the bridge the cabins were in flames from snd to end in a desperate jump for the bulkhead of the ferry slip to save himself, the pilot dislocated his shoulder, but fell out of the reach of the flames. The engineer, Samuel Tracy, ran through the flames and reached the deak with his clothing ablaze. His shirt was burned from his body and his hair singed. James Keel, the fireman, finding escape to the deck cut off, squeezed through the port hole and dropped overboard into the river He was hauled out and saved. The dozen passengers, and ferry hands who were on board saved themselves by jump ing to the bulwarks of the ferry slip, or by dashing through the flames to the bridge. All escaped as far as known. Two sugar house trucks, from Havemeyers migar house, were on the boat, There were other wagons on the boat, and it is said several teams jumped overboard in their fright. The fire started near the boiler, and broke out so suddenly that no adequate explanation of its origin is at band. But it is supposed the heated boiler set fire to the dry wood surrounding it, hence the blaze and sudden fury.
